Project: Working with a Mock Client

Part 1

Project Listing

Sample Project Listing #1:
Web Development

Web application development support needed for healthcare application.

Posted 2 hours ago

Hourly: $35.00 - $65.00 Based on experience.
Project Time: 3 months, 25 hours a week.

Project Description:

We are a web development company working with a healthcare client looking to connect patients directly with their doctors. We need someone to be able to take PSD mockup files from our designer and convert them into custom code using HTML, CSS, and JavaScript. We have not decided on which JavaScript library to use, but will be open to working with the one you're most familiar with. We have the designs for 10 pages and will need them to be completed in 3 months. We are open to working with all levels of experience, but the pay will be adjusted based on your experience.

Sample Project Listing #2: Digital Marketing

Email Marketer for Annual Fundraising Event.
Posted 2 days ago

Hourly: $30.00 - $40.00.
Project Time: 1 month, 10 - 15 hours a week.

Project Description:

We are looking for someone to create a drip email campaign to help us sell tickets for our annual fundraising event for our non-profit. This would require audience segmentation, custom email creation, and call-to-action development. We are to reach our goal of 700 tickets sold. We haven't decided on the best tool to do this yet and would be open to your recommendations. Serious inquiries only.

Sample Project Listing #3: Data Analyst

Seeking experienced Data Analyst to build dashboard for local insurance company.
Posted 1 week ago

Hourly: $90.00 Based on experience.
Project Time: 1 year, 20 hours a week.

Project Description:
I have taken over a local car insurance company from my parents and have inherited hundreds of Excel spreadsheets with past and current customer information. I need help organizing this data and creating a dashboard to allow me to filter the data and create reports as needed. I would also need guidance on how to transfer the data to the tool of your choice. Looking forward to working together!

Part 2

Expression of Interest

Expression of Interest

Write an initial expression of interest (EoI) to the client:

- Now that you've understood what the client is asking for, it's time for you to reach out to them.

- Write out an EoI message addressing their requirements as well as how you can help them.

- This message will be their first impression of how you communicate with them, so it is good to be professional.

- Please keep word limit between 200 - 300 words.

Expression of Interest (Provided)

Which Sample Project Listing did you select to respond to?

Answer: sample project listing #1

Please type your initial response to the client below.

Expression of Interest: Hey - I am happy to help with making your web
application and I am honored to help your company – looks like you
need to convert the designs for 10 pages with PSD mockup files
extension to custom code using HTML, CSS, JavaScript and with the
use of JavaScript library that I use which is React.js is an open-source,
front-end JavaScript library.Declarative views make your code more
predictable and easier to debug.
Although event handlers appear to be rendered inline, they will be
collected and implemented using event delegation. And from its features
and Benefits: Due to this selective rendering, the app performance
boosts while saving the developers' efforts in recalculating the page
layout, CSS styles, and full-page rendering. It uses lifecycle
methods like render and component Did Mount to allow code execution
at specific points during an entity's lifetime. It supports JavaScript XML
(JSX) that combines both JS and HTML. It helps in component
rendering with nested elements, attributes, JS expressions, and
conditional statements.
I am Web app developer with 3 years of experience with 40+ clients in
US andEurope. I have made single page Web sites as well as complex
Web Applications. I Use Trello Platform To mange my Projects. Let me
know if you'd like to chat.
